

“Education Prevents Litigation”

INHOUSE INFECTION CONTROL TRAINING

Let’s work together for a positive result for your practice with the New 2021 ADA Guidelines.

Have you had a change in staff? Make sure your team are all on the same page and ensuring infection control policies and procedures in your practice are compliant with **AS/NZ 4815:2006** standards and the new 2021 ADA Infection Control Guidelines with International Keynote Speaker Sue Sandles.

Our teams knowledge and experience in infection control will ensure a positive outcome for both your patients and dental team. Don’t miss this opportunity for your team to have a 4 hour session of professional, yet **fun and engaging** learning experience at a time that is convenient to you.

We also issue presentation folders and conduct an audit on your practice with no reporting to regulatory bodies.

Training Includes:

- Precautions of infection control
- Handling and disposing of sharps and contaminated waste
- Hand washing technique
- PPE
- Aseptic technique
- Occupational Health and Safety in the workplace
- Identifying problem areas in your practice
- Reprocessing of reusable instruments
- Correct flow of the sterilization room
- Documentation and practice protocols for infection control
- Environmental cleaning of the dental practice
- Maintenance of equipment including cleaners and autoclaves
- Documentation and mandatory signage requiring for infection control
- Your team will demonstrate a complete changeover and environmental cleaning
